Special Provision for Flagger at Side Roads and Entrances

January 9, 2009

This special provision was developed by the Bureau of Construction to update the payment requirements for flaggers required at side roads and entrances remaining open to traffic. It should be inserted into contracts using Highway Design Standards 701201, 701306, 701336, or contracts with traffic control plans requiring flaggers at side roads and entrances remaining open to traffic.

The districts should include the BDE Check Sheet marked with the applicable special provisions for the April 24, 2009 and subsequent lettings. The Project Development and Implementation Section will include a copy in the contract.

This special provision will be available on the transfer directory
January 9, 2009.

FLAGGER AT SIDE ROADS AND ENTRANCES (BDE)

Effective: April 1, 2009

Revise the second paragraph of Article 701.13(a) of the Standard Specifications to read:

“The Engineer will determine when a side road or entrance shall be closed to traffic. A flagger will be required at each side road or entrance remaining open to traffic within the operation where two-way traffic is maintained on one lane of pavement. The flagger shall be positioned as shown on the plans or as directed by the Engineer.”

Revise the first and second paragraph of Article 701.20(i) of the Standard Specifications to read:

“Signs, barricades, or other traffic control devices required by the Engineer over and above those specified will be paid for according to Article 109.04. All flaggers required at side roads and entrances remaining open to traffic including those that are shown on the Highway Standards and/or additional barricades required by the Engineer to close side roads and entrances will be paid for according to Article 109.04.”
